Gil Fernandes

Software Engineer at Onepoint Consulting
London Area, United Kingdom

Summary

A Software Engineer and data scientist with over 23 years of professional experience in different companies. I spent a good part of my professional career working in projects related to the aviation industry and the rest as developer in Talend and Java based projects.

In 2019 I commenced my learning on Artificial Intelligence and Deep Learning and related technologies and participated in several Kaggle competitions.

I also contribute regularly several open source components to Talend Exchange.

I dedicate my weekends to my pet projects for UK charities which promote well-being and meditation.

Experience

Onepoint Consulting

Software Engineer and Data Scientist

July 2007 - Present (16 years)

London, England, United Kingdom

Senior Software Engineer

About Onepoint:

Onepoint was established in 2005 in London to specialise in enterprise architecture consulting and open source solutions.

Based out of London and Pune, today we help our worldwide clients assess, define, and deliver successful digital initiatives by applying design thinking and the latest innovations in AI, cloud, data, sensors, low code, and more.

We are proud to be called trusted partners by our clients. We love to provide value in whatever we do.

Our core service areas are Do Data Better, Innovate with AI & more, and Solve with Design Thinking. We welcome complex digital problems. Drop me a direct message on LinkedIn or get in touch through our website at onepointltd.com.

Vaultium
